

Project Supervision

March 16—May 18

(Tuesday Nights Only)
6:00 pm – 9:00 PM

Project Supervision is designed for anyone desiring to be a supervisor; for the “new” supervisor; or to enhance the Supervisor's management skills. It also provides participants with much needed people-skills and reinforces the technical skills needed to run a profitable operation. This course will include five of eight NCCER training modules.

TOPICS COVERED:

- Cost Awareness (Module MT204)
- Resource Control (Module MT208)
- Planning & Scheduling (Module MT207)
- Estimating (Module MT205)
- Construction Documents (Module MT206)

Upon completion of all eight modules of Project Supervision, participant will receive NCCER Certification for Project Supervision and a Certificate of Completion from MSTI.

Cost:

- \$240 members
- \$480 nonmembers

Note: nonmembers must pay in advance

.....
